U.S. Patent No. 6,212,259 issued April 3, 2001

Entitled: **IMPEDANCE BLOCKING FILTER CIRCUIT**

I believe said inventors to be the original and first inventors of the subject matter which is described and claimed in said patent, for which a reissue patent is sought on the invention entitled: "IMPEDANCE BLOCKING FILTER CIRCUIT", the specification of which is attached hereto along with the preliminary amendment amending the claims.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above;

I acknowledge the duty to disclose information which is material to patentability as defined in Title 37, Code of Federal Regulations, § 1.56:

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply)

- ☐ by reason of a defective specification or drawing.
- ☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.
- ☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening: At least one error upon which reissue is based is described as follows: This is a broadening reissue application. The original prosecuting attorney did not appreciate the full breadth of the invention with respect to the prior art, and therefore claimed too narrowly.
